Description

ISD-15 Integrating sphere detector base sphere

The ISD-15 is used as a base sphere for setting up of integrating sphere detectors. Its measurement port has a 38.1 mm diameter. The detector port is aligned at a 55° angle to the measurement port. A socket with an M6 connector is used for mounting.

Reflective coating made of barium sulfate

The ISD-15 is coated with Gigahertz-Optik's self-manufactured ODP97 barium sulfate diffusely reflective coating. The multilayer coating guarantees diffuse reflective properties over the entire usable spectral range.

Standard options

- Port reducer for the measurement port
- Baffle between the measurement port and detector. Necessary for highly divergent radiation beams
- SMA light guide connector
- Opening with plug for auxiliary lamp

Complementary products and services

For further enhancement of the ISD-15, Gigahertz-Optik offers a wide range of port adapters and sphere accessories. These can be connected with radiation detectors and light meters for various applications. In addition, the Gigahertz-Optik calibration laboratory for optical radiation measurands performs traceable calibrations of the integrating sphere radiation detectors.

Specifications

General

ISD-15	Preconfigured hollow sphere of the UM series modular construction integrating spheres with detector applications for 2π sources
Sphere diameter	150 mm / 6 inch
Coating	ODP97
Spectral range	350-2500nm
Socket	UMSS-SM14-M6
Measurement port	UMPF-1.5, Free diameter: 38,1 mm
Detector port	UMPF-0.5, Free diameter: 12,7 mm
Dimensions	see download section

Contact, Calibration, Service & Support

We are known worldwide for excellent technical consulting and after sales support. Contact us to find together the best solution for you. Our services:

- Technical Consulting & Sales
- After-Sales Support
- Calibrations & Re-Calibrations ([ISO/IEC 17025 Calibration Services](#), [factory calibration](#), [Calibration of Third-Party Products](#))
- Repairs & Updates
- OEM & Feasibility Consulting of Customized Solutions

[Send us your inquiry](#) or contact us by phone or e-mail. We would welcome your feedback too or review us on [Google](#).
