Description

Integrating Sphere

The UPK-250 integrating sphere with a diameter of 254 mm with ODM98 coating offers high light throughput in the spectral range from 250nm to 2500nm. This large diameter sphere is exclusively built to order offering complete freedom for individual custom design. Typical application set-ups are for an integrating sphere light source, light intensity detection, transmittance, reflectance and photoluminescence.

Customizable

Please contact us to discuss your sphere requirements.

Specifications

Specification	
Coating	ODM98
Sphere diameter	254 mm
Measurement Port Diameter	To be specified
Detector port	To be specified
Mounting	To be specified
Dimensions	To be specified
